Komlan Roland AGBOYIBO

Frontend developer / Accounting assistant

Hello, i'm Komlan Roland. I'm a self-taught frontend developer and accounting assistant with experience in both fields. I'm passionate about web development and i have learned a variety of programming and markup languages and frameworks through online tutorials and personal projects. I studied accounting in high school and university and my specific course was Accounting Control and Audit, and i'm always looking for new challenges.

Work experience

Stock Inventory Assistant

From July 2023 to October 2023 [DTECH GROUP](#) Lomé - Togo

Active participation in stock evaluation, documentation of results, and data verification.
